EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Amendment filed on 01/27/05. Claims 1, 12, 13, 20 and 23 have been amended, and claims 24-29 have been canceled accordingly.
2. Claims 1-23 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Claim 1 was indicated allowable and has been amended to overcome the 112, second paragraph rejection.

The prior art of record does not disclose or render obvious a motivation to provide for a method of controlling a motor vehicle having an automated clutch, and engine control device, an actuator-controlled automated transmission, and an electronic control device for actuating the transmission and the clutch as defined by the limitations of claim 1, including the steps of detecting a vehicle traveling speed, an actuation of one of a brake and a fuel-metering element, and an operating state of the engine, disengaging the clutch if the engine is running while the traveling speed is greater than a threshold value, and the brake pedal and the fuel-metering element are not actuated, and subsequently re-engaging the clutch if the brake pedal or the fuel-metering element is actuated, wherein the engine rpm-rate is controlled such that the engine rpm-rate and the transmission input rpm-rate are brought towards a closer agreement prior to the re-engaging of the clutch .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
